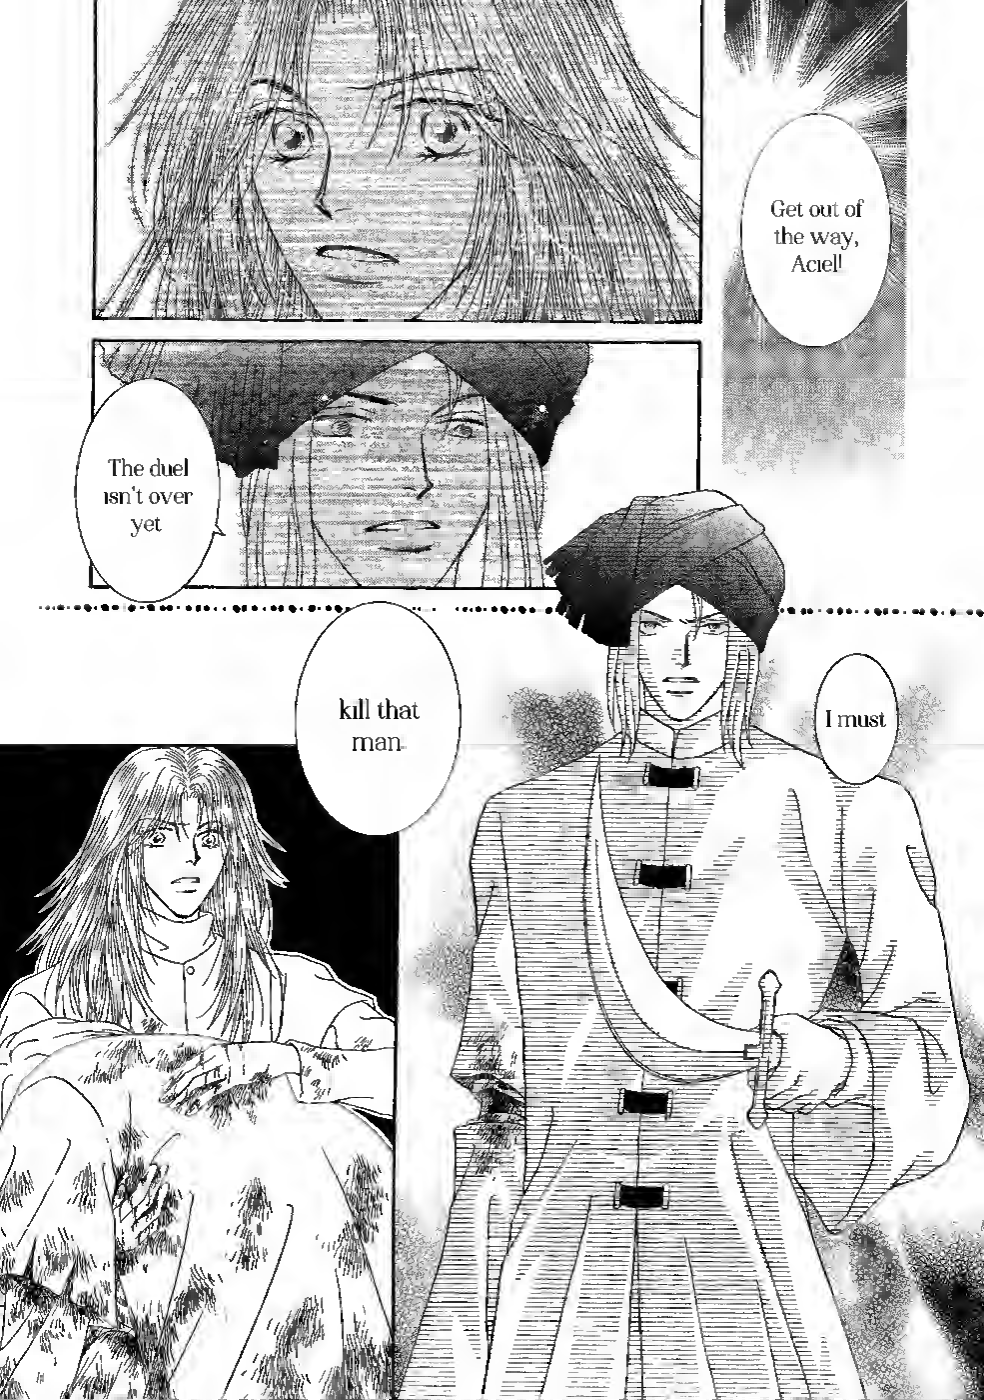
BAM!!
I mean Master!
Hercules!
I wonder Why have so many people come to the palace?
It's so crowded
Oh, what's up, tracking team?
Do you want to drink, too?
This is serious!
A dreadful thing happened!
There is a duel, but that isn't something rare, is it?
Although Turkey is our enemy, it is hard to not be impressed by its wealth and elegance
It's not available in Malta Island yet
This is a drink from Syria.
It's a little bit bitter, yet it seems to be addictive
This "Kahve"* thing
Why don't we open up a coffee shop in the Malta Island?
Is it a suitable idea?
* Referring to coffee

Team Zica Credits: ***Akanenaoikiki*** translated. Thank you!

And the one who he challenged to a dueling in Luxor
was Bakugo Katsuki!
!!

Aren't Aciel and Lucas,
Sultan Suleiman's guests?
BATHUMP
BATHUMP
BATHUMP
BATHUMP
BATHUMP
BATHUMP
scene. 28
Eastern Kingdom 6

MUMBLE MUMBLE
Hurry... stitch up all the wounds!
BATHUMP BATHUMP
Whose heartbeat is this?
Mine? Or Lucas'?
None?
Is there a doctor
Here?
Hold on, Loue Rene!
Aciel
Is Lucas' heart
still beating?
Is he still breathing?
What about his breath?
It will only make the situation more confusing if we step in!
The spectators are all confused
about the person who suddenly rushed in during the duel...
protecting the enemy, who is from the St John knighthood
MUMBLE MUMBLE
MUMBLE
Are there any doctors...?
I have to hurry up...
Blood... is still dripping...



Get out of the way, Aciel!
The duel isn't over yet
I must kill that man.

It is Lucas who challenged me,
to an official one on one duel.
You are also a knight, therefore you must under stand that,
you have violated the rules of a duel.
Let go of Lucas!
The rules ...
of a knight.
I know...
I know about these things...
However...
Can't it...?

SHOCK
Can't it be... my life instead?
Aciel
Use my life...!
I beg you, Dragut!
to replace Lucas' life!

Team Zica Credits: ***Andy*** proofreaded. Thank you :)

that's right
Ahh
I see, that's how it is ...
I...
I love Lucas.

I love him,
more than my own life.
I love Lucas.
Yes, I do. I do love him.

as if she's a goddess from the ancient times...
Such beauty...
Falling in love with you.
hence I'm not longer the Angel of Death.
I am unable to kill you...
has become the end of me.
RATTLE

This duel was proposed by knight Lucas,
It would damage Admiral Dragut's reputation if he declined it.
And the other knight, Aciel, is an important guest of the emperor
Even if you want him to kill the knight, understand that Dragut is in a difficult position!
STAND UP
Why
JABBER JABBER
Why didn't he give him the last blow...?
Lord Admiral!
Have you lost to the St John's knight?
What has become of Turkey's strongest army?
JABBER
Don't be soft hearted!
JABBER
JABBER
No good!
If this continues,
it'll turn into a riot!
Silence, everybody!

Sultan Suleiman ...?
I thank you for travelling so far to my country
Oh my!
We finally met, Aciel
I am sultan Suleiman,
JABBER JABBER
It is my pleasure to be able to see you, Aciel
Why would His Majesty, come here?
The Sultan
Suleiman!
WOW!!!
It's His Majesty!
Your Majesty!

so we have to find a method which can satisfy both parties
but if we let him leave like this, the civilians won't accept it,
Knight Lucas' condition can't be delayed any more
Ah... We will talk about that later
I originally thought that the duel would have ended in five mins.
I planned to go to the reception hall after watching the duel...
It is me who told the Sultan,
although the duel is solely the responsibility of the participants,
but since Lucas is His Majesty's guest, I have no choice but to tell His Majesty about it.
Then,
I'm going to ask knight Aciel
Are you willing to pay any cost to save Lucas?

Team Zica Credits: ***Carola*** cleaned and did some other tasks.

I'm willing to accept whatever punishment you give me!
Be it either crucifixion or decapitation,
Please save Lucas!
in exchange of Lucas' life!
I'm willing to use myself...!
change your religion to Islam?
to become one of our men and serve Turkey,
what if I ask you to
For example,
and entering the Harem?
becoming my favourite concubine,
What about wearing beautiful clothes like normal women,
Then,
I'll gladly do it
As long as it save Lucas,

I can trade Lucas' life for it.
As long as...
Certainly.
FREEZE...
As long as it is His Majesty's orders,
even if you tell me to head to the depth of the abyss
I would gladly do so
Are you going to throw away your identity as a knight?

Yes!
Treat Lucas immediately! Quick!
Doctor Muhammad,
This is a wish from a beauty that is my prospective concubine,
don't you dare let him die.
The Great Soleiman.
He calmed the agitated civilians that almost caused a riot,
in the blink of an eye.
He considered how much time Lucas had,
and also saved Aciel from losing her life,
he is the only one that can make this happen
So as to save Lucas?
Well said.

Lucas,
you must not die.
Lucas...
some things to tell you.
I still have...
Lucas,
I love you...

Team Zica Credits: ***Rbliss*** typesetted. Thank you!

His life...
his heart beat is also weak
He slipped into a coma, and his body temperature is low.
is hanging by a thread,
perhaps another hour or so
Now I will never be able to surpass him.
I always envy.
Because,
The person who
He has lost too much blood
How ever

Please tell me!
What sort of method is that?
Doctor Muhammad!
But, this method is utterly dangerous
It's blood transfusion.
Maybe, there is one way to save him.

Team Zica Credits: **Zilvere** scaned and checked quality.

Blood transfusion?
That is, to draw blood from a healthy person, and then inject it into the patient's blood vessels
But,
as I just mentioned, this method is very dangerous, the risk of failure is also very high
Although I'm secretly conducting the blood transfusion research
yet, the successful results of using the death row prisoners was only five out of ten.
In other words, the success rate is only 50%
*Blood transfusion became safer after the discovery of blood types but that was only after around 1901 A.D
Hence, I usually don't recommend using this sort of treatment
and it is also risky for the person whose blood is drawn, drawing too much blood is fatal
If it fails, the patient will die in agony
Though everyone's blood looks the same,
injecting one person's blood into another's veins can be either a cure or poison
Even I have no idea why it is like this

I definitely won't let Lucas die!
It doesn't matter even if there's only a 50 percent,
I'll be in your care, as long as there's a possibility of success
Take my blood
and give it to Lucas!
I must save Lucas!
Please hurry up!
You can draw as much as you want.
It's okay if you take it all
No
no !

No Ciel!
You're going to be His Majesty's concubine!
If I hurt you, I will also be questioned!
...
I see.
Then, let's do it this way!
Ah Ahhh!
Ah!
SHUPP
You won't be questioned
This way

This is perhaps the last wish in my life.
Please, Doctor Muham mad.
How can there be a girl like this.
As long as it grants Lucas' life,
even if I have to be imprisoned in the harem for the rest of my life,
I can be eternally happy.

I hope that before we part,
you can wake up...
This is the first time I have felt suffering deeper than death
When did I fall so deep in love with you?
But it is already too late.

Forgive me,
Lucas.
It would have been better if I could be more tender to you in the past.
It would have been better if I could feel you more...
I was so focused on taking revenge,
instead of thinking about our future.
that is filled with courage and love.
A beautiful goddess.
I understand
I will now draw your blood.
She is
just like a goddess.
Mu ham mad!
How ever,
it would be great if you two are blood-related

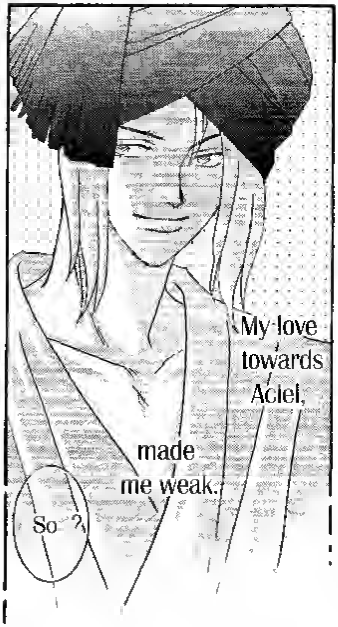
Because the blood transfusion of a blood-related person
has a higher rate of success
In the five successful cases we had, four of them succeeded thanks to blood transfusion from blood related donors
blood transfusion.
Ah... Admiral!
Hmm?
What happened?
My bandage is soaked in blood,
help me change into a new one
Ah! My apologies! Isn't there a helper with you? Why didn't you let your helper
Oh... I asked him to leave since he was too annoying

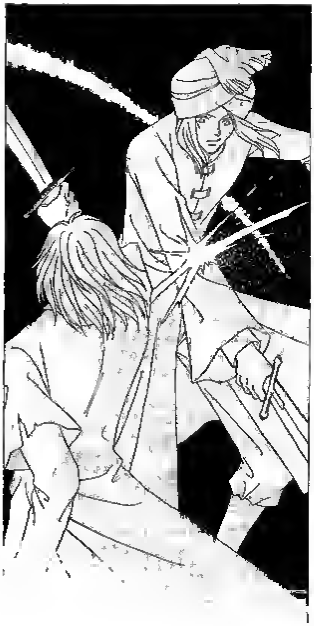
Ahh yes!
Quickly!
Change the bandage for the Admiral!
That right hand of his...
is no longer capable of grabbing a sword.
Thank you,
Dragut.
for not killing Lucas

Even it's like that,
I still want to thank you
I was merely following His Majesty's orders.
It's done
It's...
Is that calm beauty of hers due to her love for Lucas...?
Why is she still that beautiful?
She even promised to get into the Harem...
be that as it may.
Would you please take a rest in the room next door?
Okay
I will diagnose you after this is done
Sorry to trouble you
KERCHAK
!!

Zn
Umm
What happened
Vice captain Daud?
Captain,
please let me offer my apology with my death

I do sympathise with the dying Lucas, however,
doing this meant betraying you.
If I had not bring Aciel to the duel site,
captain you wouldn't have been injured





Lucas won because of Aciel's love,

I lost.

Lucas is my blood-related nephew.
I have known for a long time that you care about Lucas a lot, but,
you actually did betray me What's your relationship with him?
I have the right to know
What's between you and Lucas?
The stone ring that Lucas has on his right hand,
is my sister's.
My sister who parted with me 28 years ago

Aciel,
you must be really lucky.
Come here, vice captain Daud.
I have decided what punishment you're going to receive
Cap-tain
Because the blood transfusion of a blood-related person
has a higher rate of success.
Thank you!
Dragut

KA-WHAM!!
Cap-tain
this place is—
If you need blood,
there's plenty here.
Quickly stop the bleeding from the princess' wounds, Doctor!
Hurry up!
There is no need to draw her blood!
Dragut?

Dragut, this...
Due to my love for this girl,
Vice captain Daud...
I lost my right arm.
it's fine even if you draw out all of his blood.
Use this man's blood,
Because I love Actel,
Cap tain...
Dragut...

I am...
no longer the Angel of Death.
This man
is Lucas' uncle.
What you guys want,
is the blood of a blood-related person.
